

Hi,

Every once in a while some bozo in D.C. does something, or is about to do something, well, stupid...

Am writing to protest any weakening of Indiana's "No-Call" law.
"The Freedom From Telemarketers Act."

Have really appreciated to peace and quiet this law has given me.

i.e. the freedom from intrusions on ny privacy by people who are unwanted, unwelcome and are generally the lowest form of parasite on this planet.

I put them right down there with child molesters.

If any attempt is made to weaken the state law, I for one, will be more than happy to contribute however I can to lawsuits, and any other methods to combat this.

How dare you even consider meddling in my state's laws.
Not to mention my personal privacy and peace of mind.

Michael Blake
